Ohio Department of Job and Family Services CHILD MEDICAL/PHYSICAL CARE PLAN FOR CHILD CARE

A separate plan must be written for each condition that requires different actions to be taken and must be kept at the program for at least one year.

This form shall be completed when a child has a condition that requires one of the following: • Monitoring the child for symptoms which require staff to take action • Ongoing administration of medication or medical foods • Procedures which require staff training • Avoiding specific food(s), environmental conditions or activities • School-age child to carry and administer their own emergency medication
If the medication or medical food is documented on this form, then a JFS 01217 is not required.

Part IV: Documentation of Administration of Medication or Medical Food

Completed by child care staff member, family child care provider or in-home aide for the child listed on this form

All medication or medical food must be documented when administered. Document each medication or medical food on its own page. Incomplete information elevates the level of risk to children. If more than one medication or medical food is needed, make a copy of this page for each medication or medical food.

This medication or medical food is not to be administered until after the child has received the first dose or application at least once prior to the program administering a dose to avoid unexpected reactions. Emergency medications for the child are exempt from this requirement.
